

Success Wheel

Think of 8 significant areas of your Life or Work. Draw your wheel, and label each segment.

Now score each segment out of 10 points and draw a line through the segment to reflect the score you have allocated.

Do this for every segment. Shade in the inside (the area where you've scored points, leaving the areas where you haven't allocated any points unshaded)

How smooth are the edges of your wheel? For example, if you scored 9 out of 10 for all 8 segments, the edges would be smooth and the wheel would turn effectively.

Could your wheel turn or would it stall?

Action Plan for Greater Success

Select 3 segments where you'd like to improve the score over the next 3 months.

Segment I want to focus on.	What do I want to achieve?	What action will I take?	Which resources do I need?	When will I have completed ?
Eg. Career	Eg. a promotion to the role of manager by Dec.	Eg. ask to take on a project to show case my skills	Eg. knowledge, people, KPI reporting	December

Continue to set yourself actions for improvement and be relentless in your quest for SUCCESS. Good luck :)
